

Roc Solid On Demand

Communities building hope for kids fighting cancer.

Play It Forward

Roc Solid's Play It Forward initiative builds custom playsets in the backyards of kids fighting cancer.

A new backyard playset not only provides a safe haven for play, but it also represents an escape from the reality of fighting cancer, and most importantly, hope for the future. We are currently completing playset projects in Virginia, North Carolina and South Carolina.

Not in one of those regions?

Meet ROD - Roc Solid On Demand!

What is Roc Solid On Demand (ROD)?

Roc Solid On Demand (or "ROD") brings play to kids fighting cancer all across the United States. How does it work? We package and ship the entire Roc Solid playset experience with all the resources and detailed instructions to make it a great day.

If your child is fighting cancer, we encourage you to find a "host" for your playset project. This could be a friend, an extended family member or a local group (church, school, civic group, etc.)... think about who's been asking "What can I do to help?"

Roc Solid On Demand includes:

- Wooden Playset
- Easy-to-follow instruction manuals
- A “Play Kit” to make it a fun, memorable experience

“Play Kit”

Roc Solid T-Shirts, Stickers, and tons more

“ROD Portal”

An easy-to-use landing page that stores tons of helpful resources, including videos, a tool guide, and more!
